PHILIPPINE ASSEMBLY

Was Inaugurated With Great Enthusiasm.

THOUSANDS OF VISITORS

Were Present to Witness the Opening Exercises.

AGUINALDO HEARTILY CHEERED.

In an Interview the Insurgent Leader Said There Was No Need of a Protectorate, but the Insurgents Wished Absolute Independence.

Manilla, Sept. 17.—The Philippine national assembly was inaugurated at Malolos with great enthusiasm.

There were thousands of visitors from the provinces and a great display was made. Aguinaldo entered the hall of the convent recently occupied by the Spanish local government.

Aguinaldo, who was received with cheers and also with cries of "Viva America" by the large crowd of natives inside and outside the hall, read a decree convening the members, who included several Spaniards.

He next read a message eulogizing the army and thanking the friendly nation which had set the historical example of liberty and had assisted a down-trodden race.

Continuing, Aguinaldo urgently and eloquently exhorted the assembly to follow the noblest principles and invoked the spirits of the "martyred Filipinos."

The assembly then adjourned for the day.

A Spanish delegate suggested that business be resumed in the afternoon, but a Filipino objected and accused the Spaniard of attempting to undermine the constitution. To this the Spaniard replied that he was a sincere republican and that his only desire was the welfare of the country. Thereupon the Filipino apologized and the proceedings terminated.

During the afternoon many Americans and Europeans arrived and Aguinaldo was kept busy receiving visitors including the American consul.

The correspondent had a private interview with Aguinaldo who is extremely unwilling to compromise himself with the natives. He said that a majority of the Filipinos had been struggling for freedom for years, and that they now believe that object has been obtained.

Aguinaldo professed entire ignorance of the autonomy system in vogue in the British colonies, of protectorates and of American state autonomy.

He said he was unable to understand the idea, and only understood "absolute independence." Personally, he believed a protectorate for the Philippine islands was necessary, but he feared that the people would be disappointed in this. He had not studied political economy and knew nothing about the various forms of government.

He inquired whether Australia was an American colony, and said he had never heard of a Malay protectorate.

Continuing, the insurgent leader said there was no need of protection for the Philippine islands, because the Filipinos were able to cope with any army. He admitted that he had never seen a foreign army, with the exceptions of the garrisons at Hongkong and Singapore, and he had never seen these troops on parade.

Home From Porto Rico.

New York, Sept. 17.—The United States transport Alamo, with troops from Ponce, proceeded from quarantine to a railroad pier in Jersey City, where trains were in waiting to convey the returned volunteers to their homes in the District of Columbia, Pennsylvania and Illinois. There was considerable delay in getting the steamer alongside the dock. Company A, provisional battalion of engineers from the First Illinois volunteers, was among the troops debarked from the Alamo. This company was the first to land in Porto Rico, going ashore at Guinaca on July 25, and was the only Illinois command that saw service both in Cuba and Porto Rico.

To Affirm or Deny.

Indianapolis, Sept. 17.—The war department telegraphed to Chaplain G. A. Carstensen of the Fifteenth Indiana regiment, just returned here from the south, calling on him to affirm or deny the text of an interview credited to him in an Indianapolis paper. Among other statements credited to the chaplain is one that the general in chief of the medical department was a vet-

erinary surgeon who had devoted all his life to doctoring horses. In describing Camp Thomas Chaplain Carstensen is quoted as saying: "Exaggeration is not necessary. Facts are more condemnatory than fiction. The real conditions were bad enough, God knows."

France's Gracious Act.

Washington, Sept. 17.—The French ambassador, M. Cambon, is back from a three weeks' outing at Lake George, Lake Champlain and through Canada. The ambassador and M. Thebaud called at the state department and had a short visit with Secretary Day, to convey to him in behalf of the French government assurances that every courtesy and attention would be given the American commissioners. The French government has invited the commissioners to meet in the famous Salons des Ambassadeurs, one of the most sumptuous apartments in Europe.

DAY QUITS THE CABINET.

His Resignation Formally Tendered to the President.

Washington, Sept. 17.—Secretary Alger was the only absentee at the cabinet meeting. Secretary Day tendered to the president his resignation as Secretary of state and took leave of his cabinet associates. A telegram from General Otis at Manilla was read, showing that the situation there was entirely satisfactory. The instructions to the peace commission were gone over for the last time and officially approved.

Assistant Secretary Moore of the state department also tendered his resignation to the president.

Senator Gray, who is detained in Philadelphia, will not come to Washington, as his time will be limited, but will go direct from Philadelphia to the Campania, upon which the commissioners will sail. The peace commissioners have left here for New York. The only important callers at the White House were Senator Frye and Mr. John W. Foster, who remained with the president only a short time.

Peace Commissioners Depart.

Washington, Sept. 17.—The peace commissioners with the exception of Senator Gray, who is expected to join the party at New York, left Washington at 4 p.m. over the Pennsylvania railroad without any ceremonies. The commissioners were accompanied by a considerable staff of attaches and Edward Savoy, the faithful and trusted messenger, who has stood guard at the doors of the secretaries and assistant secretaries of state for many years, and who will in Paris still be on guard at the doors at the rooms, where the commissioners will take up their quarters.

Must Board the Transports.

Montauk Point, L. I., Sept. 17.—There are now in Fort Pond bay the transports Reumania, Berlin, Chester and Manitoba. It is expected that the cavalry and artillery troops will be taken away on these transports. General Wheeler has announced that the cavalrymen will not ride through Long Island into New York, as was at first proposed. There are several thousand horses to be moved, and General Wheeler says they can best be taken away on the transports.

Ranks Sadly Depleted.

Chicago, Sept. 17.—The Fourth United States infantry, Major Stephen Baker commanding, arrived in Chicago over the Lake Shore road. The regiment was breakfasted and departed immediately for Fort Sheridan, where it was located before being called out. The ranks of the regiment have been sadly depleted since their departure for Santiago, only nine officers and 225 men returning. In the battle of El Caney this regiment alone lost three officers and 40 men, and since then many have died from fever.

Alger Will Visit the Camp.

Lexington, Ky., Sept. 17.—There were two deaths at Camp Hamilton, Private Silas C. Sapp, One Hundred and Sixtieth Indiana, of Warsaw, Ind., and Private Guy Leisher, Second Missouri, of Jefferson City, from typhoid fever. There have been 12 deaths in all. Major General J. C. Breckinridge arrived from Knoxville and assumed command of the camp. Secretary Alger will reach here Monday night and spend Tuesday visiting camps and hospitals, and leave for Knoxville Tuesday night.

Assignment of Ships.

Washington, Sept. 17.—The three battleships which have just been contracted for have been assigned to the builders as follows: The Ohio to the Union Ironworks of San Francisco, the Missouri to the Newport News company, the Maine to Cramp & Sons, Philadelphia. The ships are to be built in 23 months. Formal notices of the awards were sent out to the successful bidders.

More Sick Soldiers.

New York, Sept. 17.—New York and Brooklyn received 316 sick soldiers who were brought down from Camp Wilcox on board the steamer Shin-

cock. Of the number 137 were taken by Dr. A. E. Gallant, representing the Woman's National War Relief association, to the Salvation Army House, in East Fifteenth street, to rest up until their furlough papers can be made out.

Will Schofield Accept?

Washington, Sept. 17.—General Schofield called at the White House and held an hour's conference with the president regarding the matter of his acceptance of a place on the commission to investigate the conduct of the war. On leaving, the general said that the matter was still in abeyance, but probably a decision would be reached at another conference.

General Miles Improving.

Washington, Sept. 17.—General Miles is much improved, having now no fever. On the advice of the attending physician, however, the general will remain in bed for the present. The plan for a rest from duty is about given up, and he is expected back at army headquarters soon.

Seventh Ohio to Quit.

Camp Meade, Middletown, Pa., Sept. 17.—The movement of troops from camp to the south to prepare for garrison duty in Cuba, Porto Rico and the Philippines will begin early in October. The corps will have been established and in good working order by that time. The Seventh Ohio regiment, which has received orders to muster out, has been removed to the southern end of the camp.

Out of Commission.

Washington, Sept. 17.—Another order from the secretary of the navy put the following vessels now at the Norfolk navyyard out of commission: Siren, Stranger, Tecumseh, Viking, Wasp, Frolic and Apache. They are not needed now, and their crews will be transferred to other ships, where they are not short service men.

Spain's Peace Commissioners.

Madrid, Sept. 17.—It is reported here that the Spanish peace commission will be composed of Señor Montero Ríos, president of the senate, Señor Villarrubia, General Corero, General Azcarra and Señor Urzúa.

To Be Mustered Out.

Topeka, Sept. 17.—At the request of Governor Leedy the Twenty-first Kansas volunteers, who have been in camp at Chickamauga all summer, will be mustered out at once.

Solemn Requiem Mass.

New York, Sept. 17.—A solemn requiem mass for the repose of the soul of the dead Empress Elizabeth of Austria was celebrated in St. Patrick's cathedral. Archbishop Corrigan was seated on the throne in the sanctuary and Father M. J. Lavelle by his side. There were present the consul generals of Austria (who acted as ushers), Switzerland, France, Japan, Turkey, Greece, Russia and Guatemala, all in full uniform and about 200 persons, including many Austrians.

Cheaper For Consumers.

Washington, Sept. 17.—The contract recently made by the postoffice department for stamped envelopes and newspaper wrappers will, as calculated by Third Assistant Postmaster General Merritt, save the consumers of these articles at least \$1,000,000 a year. There is a very marked difference between the prices which will go into effect Jan. 1 next and those which prevail under the present contract.

Suicide of the Purser.

Port Townsend, Wash., Sept. 17.—Steamer City of Seattle arrived from Skagway with 150 Klondikers who left Dawson Sept. 2. The amount of gold dust brought out is variously estimated at from \$150,000 to \$200,000. Leonard Winbolt, the purser of the river steamer Linda, committed suicide by taking morphine while the steamer was on its way down the river.

Jury's Verdict.

San Francisco, Sept. 17.—The inquiry over the body of Henry Hildebrandt, who was shot by Soldier Walter Rosser of a Tennessee regiment, was held, the jury rendering a verdict that Hildebrandt was killed by Rosser.

Carpet Weavers' Strike.

Philadelphia, Sept. 17.—Over 100 weavers and printers employed by Stinson Brothers, carpet manufacturers, struck on account of a threatened reduction of wages. Their refusal to work will affect 300 other employees of the mill.

Chaplain to Be Courtmartialed.

Washington, Sept. 17.—The secretary of the navy ordered a court martial for the trial of Chaplain McIntyre of the Oregon, who is accused of publicly denouncing his brother officers who engaged in the battle of July 1.

Judge Thompson's New Job.

Washington, Sept. 17.—Judge A. C. Thompson, ex-member of congress from Ohio, has been appointed United States district judge for the Southern district of Ohio, to succeed Judge Sage, retired.

More Sick Soldiers.

New York, Sept. 17.—New York and Brooklyn received 316 sick soldiers who were brought down from Camp Wilcox on board the steamer Shin-

MORE BUSINESS DONE, But the Profits May Be Considerably Less.

New York, Sept. 17.—R. G. Dun & Company's weekly review of trade says: Business is passing well through the difficulties that attend the winding up of a war, which are generally greater than those involved while war is in progress.

The rush of orders kept back while war lasted, by those who thought it shrewd not to take any chances, has lifted prices a little and caused a larger demand for the time than can continue, but thought it has passed, there is ample evidence that the consuming demand is very large. How large can only be judged after some weeks of waiting.

But once more it looks as if those who wait longest are likely to pay most. The business of the country is expanding, so that payments through clearing houses in the second week of September were 22.5 per cent larger than in 1892.

From these and railway returns and such trade reports as are instructive, it must be concluded that much more business is being done than in the best of past years, though not always with much profit.

Failures for the week, 174 in the United States against 204 last year, and 23 in Canada against 40 last year.

No Money Stringency.

Washington, Sept. 17.—The amount of United States 6 per cent bonds is sued in aid of the Pacific railroads maturing Jan. 1 next, so far received at the treasury for redemption under the secretary's offer of Sept. 3, is \$473,000. The fact that so few of these bonds have been sent is regarded by the treasury officials as proof that there is no stringency in the money market in any part of the country.

Exempt From War Tax.

Washington, Sept. 17.—The commissioner of internal revenue has decided that telegrams of ambassadors, ministers or other members of the foreign diplomatic corps residing in this country, including consuls general, consuls, etc., will be exempt from stamp tax except where such telegram relate to commercial business in which they are personally engaged.

Receiver Asked For.

Chicago, Sept. 17.—Application for a receiver for the National Linseed Oil company was made in the United States by Meyer Bernhard, who states that he is the owner of 25 shares of the stock of the corporation. Bernhard sets up the claim that the National Linseed Oil company has become thoroughly disorganized.

Falloon Chosen.

Athens, O., Sept. 17.—It is learned that Hon. George Falloon, president of the Ohio fish and game commission, is to represent the state on the fishery question before the United States and British high commission for adjustment of Canadian questions. The commission meets in Quebec on Sept. 20.

DEMOCRATIC TICKET

FOR CONGRESS.
MORDECAI WILLIAMS,
of Boyd County.

For Kentucky—Showers; easterly winds,
becoming variable; cooler Saturday night.

THE Democratic Congressional Committee is greatly pleased with the results of the elections in Vermont and Maine. The falling off in the Republican vote, it is held, shows very clearly which way the wind is blowing. The Republicans are apathetic, Alger is too heavy a load to be borne, and Republican displeasure is to be shown by staying at home. At committee headquarters everyone feels certain that the next House will be Democratic.

THE Hon. William D. Bynum who was virtually kicked out of the Executive Committee of the Gold Democratic party this week threatens to join the Republicans. Well, that's the only party left him now. An investigation of the finances of the Executive Committee just named showed that at the end of the campaign of 1896 the committee had a balance of \$32,000 in cash. Since then \$20,000 of this has been expended. Chairman Bynum got over \$10,000 of it in salary and nearly two-thirds of the rest for office expenses. Some members of the committee threaten to show him up.

ALGER TO RETIRE.

That's the Report From Washington—Administration Finds Him Too Heavy a Load to Carry.

[Louisville Dispatch.]

WASHINGTON, September 15.—As has been stated in these dispatches, politics has a pre-empted claim at the White House, as against personal preference these days. Since the election in Maine this has become emphasized more strongly than heretofore. McKinley, always with his party ear to the ground, heard that Algerism was not conducive to Republican success. In fact, it threatened total disruption and annihilation of the Republican Congress, thereby threatening the trusts and combinations of capitalists that have made McKinley and the wicked crushing of the common people possible. Hanna and others of the monopolistic crew have not only been hearing, but "seeing things." So it has come to pass that Alger, regardless of his liberal contributions, must go.

The procedure was decided upon several days since. It was doubted in high places at the time, but the fact remained that he had to be sacrificed, and to-day it was announced boldly that McKinley was scurrying around for a man to fill his shoes. Of course, in selecting a man for the important and honorable position some of the party's debt, incurred during the campaign, must be liquidated, regardless of competency.

Thus it is that McKinley has offered the portfolio of war to Henry G. Morse, of Wilmington, Del. It is claimed by friends of Mr. Morse that the offer was made to him yesterday. Investigation proves that this is a fact, although denied in official quarters. Mr. Morse's name does not figure in army chronicles, nor has he been prominent in national political matters, so far as noise goes. But Mr. Morse is a big manufacturer and a personal friend of the President.

The original plan to bring about the exchange which has been thoroughly aired, was to transfer Horace A. Porter from Paris to London, give John F. Draper, new Minister to Italy, the French Ambassadorship, send Senator McMillan, of Michigan, to Rome and then for Gov. Pingree, of Michigan, to appoint Secretary

Alger to the Senate to succeed McMillan. Gov. Pingree is said to be willing to appoint Alger, but the President having tendered the London place to Senator Hoar, would appear upon the face of it to discredit this general arrangement. It is, however, reported here to-night that Senator Hoar has declined to accept the Ambassadorship, which leaves the way open for McKinley to get rid of Alger.

The general opinion here is that the tender of the war portfolio to Hoar was merely a subterfuge, as he knew that the post would not be accepted by the Senator from Massachusetts.

FOR THE FARMER.

Rows of Corn and Other Plants Should Run North and South, Says a Scientific Authority.

[Courier-Journal.]

Millirons was the name of a "free negro" who, according to the Atlanta Constitution, once lived in Middle Georgia. He was ignorant, but he made a good living on land which he rented or owned. Millirons had one peculiarity. He insisted on planting his cotton, his corn and his potatoes in rows running north and south. He made such good crops that he had the reputation of being a hoodoo, or something uncanny.

But Millirons' superstition finds a vindication in modern science. Progress Agricole, discussing the question, "In what direction should rows of plants be set out?" says that Dr. Wollny, of Munich, has investigated this matter, and has proved that the best direction is north and south. "We must, therefore, plant our corn and potatoes along meridian lines," says Progres Agricole. "The advantages of this may be explained thus: Plants aligned north and south receive the light during the whole day and do not shade each other; whence the lighting is more intense, more regular and more uniform. It is the same with heat and humidity, and Dr. Woolny has proved, in particular for the trenches in which potatoes are planted, that in case of an east-west orientation the sides exposed to the north are much colder and moister than those on the south. More uniform and regular distribution of light, heat and moisture—such then, is the result of orientation in north and south lines."

That at least looks plausible. Perhaps we shall yet have scientific vindication of the people who do their planting according to the phases of the moon, and of those who insist on sleeping with their heads to the north.

Pork Packing and Provisions.

[From the Cincinnati Price Current, Sept. 15.]

The Western packing for the week has been 325,000 hogs, compared with 325,000 the preceding week, and 350,000 two weeks ago. For the corresponding time last year the number was 275,000. From March 1 the total is 11,175,000, against 9,645,000 a year ago—an increase of 1,530,000 or 16 per cent. Prices have been advanced, and at the close the average is 15@20c. per 100 pounds higher than a week ago. The average of present prices is about 18c. per 100 pounds lower than a year ago.

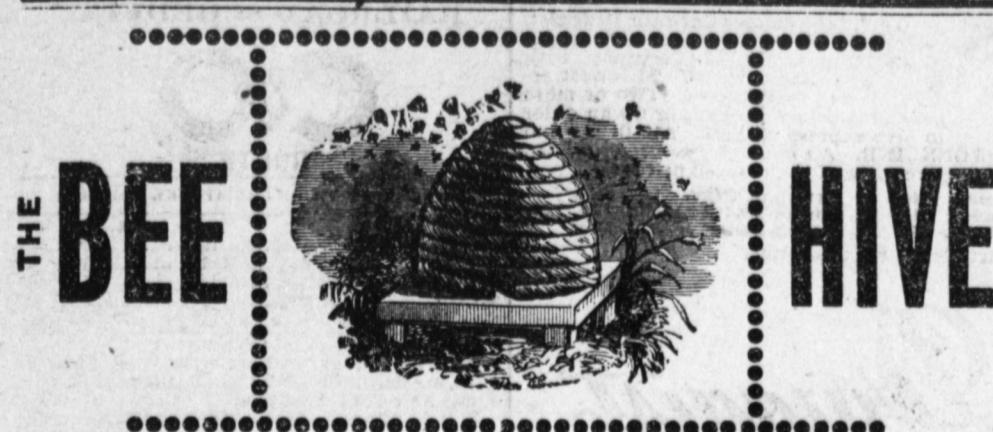

In the provision trade there has been a fair degree of activity and considerable confidence shown in values, the week closing with some advance.

The Government statement makes it appear that the number of hogs for fattening shows a decrease of 63 per cent. compared with a year ago.

THE FOURTH REGIMENT

Arrives At Anniston, Ala., All O. K.—Camp on High Grounds—Those Two Daughters.

ANNISTON, ALA., Sept. 16.—The Fourth Kentucky regiment reached Anniston at 8 o'clock last night. The trains lay in the yards an hour and were then switched two miles to the camp. The soldiers remained aboard the train all night and got off this morning and marched to Camp Shipp, a distance of one mile.

The camp is on high ground, but it is covered with shrubbery and underbrush and much pioneer work is necessary to clean it up. The climate is ideal.

Says the Lexington Leader: "The rivalry between the daughters of the Fourth Kentucky regiment has been transferred to Anniston, Ala., where the contest for supremacy will be waged warmly for some time. The bitterness between the factions became so pronounced that it was thought the best way to settle the controversy would be to leave both the young ladies behind and it was thought the trouble had ended. But Miss Mattie Marion, who claims to be the original and only daughter of the Fourth Kentucky, made a move not looked for by her pretty opponent and when the Third Battalion left she was in the car with the band and the officers did not know she was aboard the train until it reached Somersett. That night Miss Farley left for Anniston and expects to remain with the regiment for some time. She will be the guest of Captain Tyree and wife."

"The admirers of Miss Farley say she shall not be sidetracked and the same honors should be paid her as the other daughter, while the friends of Miss Marion are equally as positive that their champion shall be recognized as the legal daughter of the regiment. It is a pretty contest for supremacy, and as both the young ladies are shrewd diplomats and every card played will be a trump, it will require a good one to take the trick."

NARROW ESCAPE

For a Boy While Attempting to Stop a Runaway Horse This Morning.

Mr. William Meenach, of Bull Creek, came to town this morning with some chickens, milk and vegetables. While his wagon was standing in front of Dr. Samuel's office, the horse frightened and started to run, dashing across the street, colliding with a tree in front of the court house and overturning the vehicle.

Mr. Meenach's little son, who was standing near the horse when it started, made a courageous effort to mount the animal and stop it, but was finally thrown to the ground, fortunately escaping with only a slight cut on the back of his head. The runaway was caught in front of the Cochran residence. The vehicle was only slightly damaged.

The boy's escape from serious injury was a narrow one.

WARS CARNAGE.

An Incident of the Battle of Franklin, Tenn.
Fifty-Seven Killed in a Man's Yard.

At the great battle of Franklin, Tenn., Colonel Carter, who owned the Carter House and gin, around which the struggle raged with such fury, was home at the time, on furlough from the Confederate army. He is still living and relates that on the morning after the battle he counted fifty-seven dead men in his yard.

His son, whom they were expecting home and whom they had not seen since he left for the war, was found by a member of the family dead in the orchard near by.

Col. Carter also served in the Mexican war. Our correspondent passed over the historic field at Franklin a short time after the war.

IMPORTANT

Hygienic and Sanitary Rules For the Prevention of Disease in Public and Other Schools.

At the request of a member of the Board of Education, we reprint from a medical journal the following hygienic and sanitary rules recommended by an Eastern Board of Health for the prevention of disease in schools:

(1) The daily use of soap and water with a stiff scrubbing brush on all wood work which comes in contact with children's hands.

(2) The floor to be kept in perfect repair; no open cracks or crevices. It should be sprinkled with clean (boiled) water daily before being swept. Wipe desks with a damp cloth.

(3) Lead pencils (there should be no slates) should be immersed daily in a 2 per cent. solution of carbolic acid and wiped dry.

(4) Books which have been in contact with communicable diseases should be destroyed by fire, or treated by exposure to formaldehyde gas.

(5) During vacation open the windows and doors and moisten wood work thoroughly with solution of bichloride of mercury.

(6) Individual seats and desks in every school.

(7) A light and airy cloak room and no garments hung in contact.

(8) To which should be added as specially important—pure water and individual drinking cups.

DARING AERONAUTS.

They Ascend to An Altitude of 27,500 Feet. Next Highest On Record.

London, Sept. 16.—Next to the highest balloon ascension on record was made here from the Crystal Palace, Sydenham, by Stanley Spencer, the well-known aeronaut, and Dr. Berson.

The balloon, which was inflated with pure hydrogen and has a capacity of 56,500 cubic feet, attained an altitude of 27,500 feet.

At a height of 25,000 feet the air was so rarified that the occupants of the car were compelled to breathe compressed oxygen by tubes. The temperature was 61 degrees below freezing point. The atmosphere was clear and the coast distinctly visible. The balloon finally descended near Romford in Essex.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alterative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blisters and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinging touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the need of women appealed to Dr. Pierce, now chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favorite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.
